Deliverable D6.2 – Abstract
**List of Required Permits for
Implementation of MARE Unit**

Contract ECO/10/277237

February 2012

ABSTRACT

In the framework of this Deliverable, they are listed all the permits that are required for the installation and operation of the MARE unit, namely, the Thin Film Evaporator. These permits are related with the term and prerequisites that must be fulfilled regarding the environmental friendly, sustainable and safe operation of the unit.

The list of required permits are considered as a preparatory action that is obligatory prior to the design and purchase of the equipment that will form the thin film evaporator and its supplementary sub-systems.
